Dear requester

### Provision of requested information

Thank you for your request for a list of developments where we have adopted sewers, which we received on 18 March 2025. Your request has been considered under the Environmental Information Regulations 2004.

Please find attached adopted sites spreadsheet, showing all sites where foul sewers have been adopted by Anglian Water. Unfortunately we are unable to filter out the sites that have rising mains and pumping stations without looking at each site individually.

If there is an area of interest you can look at our mapping system to see if there is a pumping station and rising main associated with the development.

Anglian Water provides Public Access Terminals which members of the public can use to access water and sewerage mapping and related asset information.

There are three terminals located at Anglian Water, Henderson House, 4 Lancaster Way, Huntingdon, Cambridgeshire PE29 7DU.

These terminals are available for use between 09:00 and 17:00 hrs, Monday to Friday (excluding bank holidays). There is no need to book an appointment, just turn up, park in one of the marked visitor bays and go to Reception to sign in. If the terminals are in use you'll be asked to wait, and in busy times your access may be limited to a specific time period.

Anglian Water Asset Plans are also available online from [Digdat Utilities](#) for a fee.

You may also be able to view Anglian Water Asset plans at your local council offices.

The information supplied to you continues to be protected by the Copyright, Designs and Patents Act 1988.
